PROFILE SUMMARY

I am a passionate UI design enthusiast. Currently pursuing a degree in Computer Application from Kristu Jyoti College of Management and Technology. With continuous learning and online courses, I stay ahead in the ever-evolving UI design and Augmented Reality landscape. My goal is to secure a position in an innovative organization that values creativity and fosters a culture of innovation. I excel in crafting visually stunning and user-friendly interfaces, driven by meticulous attention to detail. As a proactive problem-solver, I thrive in collaborative environments, embracing new challenges with enthusiasm. Deeply rooted in user-centric design principles, I create compelling digital experiences that resonate with users. With unwavering commitment and a relentless drive for innovation, I aim to shape the future of digital interactions, leaving a lasting impact on teams and organizations.

WORK EXPERIENCE

Chief Creative Officer (CCO) 2023 - Present

Inovus Labs IEDC (Kristu Jyoti College)

As the Chief Creative Officer (CCO), I am responsible for driving innovation and leading the creative direction of the community, ensuring exceptional and visionary design solutions that elevate the brand and captivate audiences.
